

# HEALTH Fair

**Monday-Friday**  
**August 14-18, 2023**

7:00 — 8:30 a.m.

at Henderson Health Care & Sutton Family Practice

**Register at the clinic front desk. No appointment needed.**

**You should be fasting prior to your blood draw, but are encouraged to drink plenty of water.**

**Insurance will not be billed. You must pay at time of service.**

## **Comprehensive Blood Test: \$60**

Measures your sugar (glucose) level, electrolyte and fluid balance, kidney function, and liver function. Also includes a lipid panel.

## **Prostate Specific Antigen: \$35**

Measures an antigenic enzyme released by the prostate and found in high concentrations in the blood of men with prostate cancer.

## **Thyroid Stimulating Hormone Test: \$35**

A thyroid-stimulating hormone (TSH) blood test is used to check for thyroid gland problems.

## **Hemoglobin A1C: \$25**

This test tells you your average level of blood sugar over the past 2 to 3 months. The A1C test is also used to diagnose diabetes.

## **Hemoglobin A1C & Microalbumin/Creatinine: \$45**

A Microalbumin/Creatinine Urine Ratio test is used to detect any signs of kidney damage, usually caused by diabetes.

## **Vitamin D Test: \$40**

Measures the level of Vitamin D in your blood to make sure you have enough to keep your bones healthy and your muscles, nerves, and immune system working normally.

## **Spirometry Test: FREE**

Assesses how well your lungs work by measuring how much air you inhale, how much you exhale, and how quickly you exhale.
